"For twenty years past, the anti-slavery fanatics and socialists of the North had been endeavoring, with little success, to excite the anti-slavery feelings of the free States against the social institutions and constitutional rights of the South. The introduction of the Wilmot proviso as a party measure, springing out of the annexation of New Mexico ment and the policy produced by the action of two parties in Congress and among the people. For the last two or three years, the discussion springing out of this proviso has agitated the country to an extreme length, and to a threatening result. Nothing, however, has been seriously apprehended from this isolated movement of the Northern factions, until, during the present administration, we see the cabinet install ed in power under the popularity of General Taylor, rapidly assuming the anti-slavery ground, and making it constitute one of the first principles of their future course and policy.

"General Taylor has been in power more than a year that year, however, has only been a series of experiments they could act upon these anti-slavery feelings and tendencies, with force and efficiency.
